### All with bronze tint polycarbonate skylight.

**WARRANTY:** We warrant the gazebo roof, walls, sliding windows, sliding doors, louver panels modules to free of manufacturing defects to the original purchaser for ten years. It remains the customer's responsibility for freight and packaging charges to and from our service center. This warranty does not cover commercial use, acts of nature, fire, freezing and abusive use. We reserve the right to make substitutions with similar merchandise if the model in question is no longer in production.

**Care instructions:** Wash with mild soap and water, rinse with clean water and dry thoroughly. Do not use Windex or similar products on lexan panels.

**Envirotech gazebos are 100% Made the USA.**

Since 1988, A&B Accessories has added unparalleled beauty and comfort to the spa experience. Proudly made in the USA by skilled craftsman with renewable/recycled materials and the latest in manufacturing techniques.

**A&B GAZEBOS** add to the spa experience by offering protection from the elements, privacy and convenience. We have set a new standard for gazebo quality. Not only is the fit and finish of our gazebos above any other unit on the market, we have raised the bar with true solutions to problems common to our competitors.

OUR MODULAR DESIGN allows you to create the perfect environment for your spa in your climate. For those in temperate areas, four open sides or pavilion provides shade and shelter. Add the louver options for privacy and breeze control. In more severe exposures, our fully enclosed units will keep you cozy and free of insects while enjoying your spa.

### Envirotech HDPE

Some interesting attributes of Envirotech HDPE are:

- It takes eight milk jugs to make one pound of plastic lumber.
- Recycling plastic bottles uses 88 percent less energy to make than from virgin materials. Recycling one plastic bottle saves enough energy to power a 60W light bulb for six hours.

Features such as residential grade aluminum windows and doors offer excellent performance, ease of operation, and are easy to clean. Our Galvalume metal roof systems have a 40-year warranty and will withstand 100 MPH wind gusts as well as 45-lb. snow loads. Envirotech HDPE is durable, maintenance free material that will look great after years of extreme exposures.

Our furniture grade high-density material is made from 100% post consumer recycled plastic. It has a wood grain texture, is solid color throughout (scratches won't show) and has a 50-year warranty.

We currently manufacture our Envirotech™ Gazebos in Chestnut Brown Coastal Gray and Deep Red colors. Medium Brown colors.

In general, a 7'x7' hot tub will fit nicely in a 10'x10' Gazebo. For larger tubs, we recommend the 10'x14' or 14'x14' models. Allowance for the cover lifter operation should be provided—24" will suffice in most cases—consult your Dealer for lifter specifications.

#### All units are available in three colors:

10x14 Brown Enclosed Gazebo.

### 10x14 COASTAL GRAY GAZEBOS

10x14 Coastal Gray Gazebo with bar and two bar stools, two louver sections, and lower wall panels. One side open. A classic look. Moveable louvers provide privacy when needed or ventilation.
